

PIMPLES COVERED BABY'S HEAD

Became One Scale Which Was Awful
to Look At, Burning and Itching
All the Time, Began on Body.

HEALED BY CUTICURA SOAP AND OINTMENT

"Baby was five days old when I first noticed that her head was covered with red pimples. The ball of her head became one scale which was awful to look at. She cried and lay awake trying to get at it, it was burning and itching so all the time. After a while it began to break out on her body. My baby was an awful looking sight."

for six weeks before I used the Cuticura Soap and Ointment and her body and head were disfigured with scales. In a few days my baby was well all over." (Signed) Mrs. R. E. Bigelow, R. F. D. No. 2, Shelburne Harbor, Vt., July 1, 1915.

SWIG REINSTATED BY SUPREME COURT RULE

Act Under Which He Was Guilty of
Election Fraud Declared Un-
constitutional.

Boston, April 8.—Simon Swig of ward 21, who was found guilty before Judges Fox, Jenny and McLaughlin, under the corrupt practices act of 1914, is again in good standing. The supreme court has ruled that the act is unconstitutional.

ANNOYING KIDNEY ILLS

Make Life Miserable for Many Barre
People

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented, and what with the burning and scalding, the attendant backache, headache and dizziness, life is, indeed, a burden. Doan's Kidney Pills have given peace and comfort to many Barre people. Profit by this Barre resident's experience.

Frank E. Adams, 47 Elm street, Barre, says:

"I have used Doan's Kidney Pills, and they have proved a valuable medicine. For some time I had been troubled by my kidneys. My back ached, and I had pains in my sides, but Doan's Kidney Pills cured the trouble."

Price 50c, at all dealers'. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Adams had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

House Committee Reports
the Senate Measure on
the Subject

CLARK AMENDMENT ALLOWED TO STAND

Island a Weak Place in the
Government's De-
fense Plan

Washington, April 8.—Passage of the Philippine independence bill was recommended to the House yesterday by the insular committee, just as passed by the Senate, including the Clarke amendment to withdraw sovereignty within four years and empowering the president to take steps to institute a free and independent government.

"The war spreading death and ruin over Europe and large portions of Asia," said Chairman Jones in the committee report, "has brought the United States face to face with the vital questions of preparedness against foreign aggression and Congress is called upon to make adequate provision for national defense."

"If the Philippines are to be included in any scheme of national defense which may be adopted, the cost to the American people will be many millions greater than would be otherwise necessary. If the policy shall be to retain control over them, not to attempt their defense, but to abandon them to their fate, as has been suggested by military men, we shall risk inviting the scorn of the world and of standing humiliated in the presence of all mankind. The issue is clear cut."

"If the United States unfortunately should become involved in war with any first-class military and naval power, the Philippines would constitute our most vulnerable point of attack and so long as they are held as an American colony, they will prove a source of national weakness and constant menace."

There will be a minority report later.

NITROGEN PLANT PLAN OUSTED FROM BILL

Senate Committee Decides It Can Be
Considered Apart from Army
Reorganization.

Washington, April 8.—The Senate military committee yesterday decided not to incorporate provisions for a government nitrogen plant in the army reorganization bill. The proposed legislation, it was decided, can be considered separately.

Charges by Senator Underwood that the DuPont Powder company, through Hugh L. Cooper and Charles B. Landis, had opposed legislation for government-owned nitrogen plants, were denied by Cooper and Landis in letters which were read yesterday in the Senate.

Spring Colds Are the Worst

They lead to catarrh and pneumonia. They weaken the entire system and leave it unable to resist the sudden changes. They interfere with your digestion and lessen your activity. Neglected they soon become that dread disease known as systemic catarrh. Don't neglect them. It's costly as well as dangerous.

PERUNA Will Safeguard You

Have a box of Peruna Tablets with you for the sudden cold or exposure. Tone your system up with a regular course of the liquid Peruna, fortify it against colds, get your digestion up to normal, take care of yourself, and avoid danger.

If you are suffering now begin the treatment at once. Give nature the help she needs to throw off the catarrhal inflammation, and again become well.

Peruna has been helping people for 44 years. Thousands of homes rely on it for coughs, cold and indigestion. It's a good tonic for the weak, as well.

A BIG SLUMP IN THE WHEAT CROP

Official Forecast Is 495,000,000 Bushels,
Against 655,045,000 Bushels
in 1915.

Washington, April 8.—A total production of 495,000,000 bushels of winter wheat was forecast yesterday by the department of agriculture, the estimate being based on the condition of the crop on April 1, and an assumption of average abandonment of acreage and average influence on the crop to harvest.

This compares with 655,045,000 bushels, the estimated production in 1915, and 684,990,000 bushels in 1914.

The condition of winter wheat on April 1 was 78.3 per cent of normal, against 88.8 last year, 95.6 in 1914, and 87.3 average for the last 10 years. There was a decrease in condition from Dec. 1 to April 1, of 0.4 points, compared with an average decline of 3.5 points between those dates in the last 10 years.

GERMAN LOSS 200,000 MEN

Up to the Present Time in
the Battle of
Verdun

FRENCH ESTIMATE OF CASUALTIES

Is Based on Documentary
and Verbal Testi-
mony

Paris, April 8.—The German losses before Verdun up to the present time have reached the huge total of 200,000 men, one of the greatest battle losses in the whole of warfare, according to estimates made public here from a semi-official source—"the result of careful inquiry made in the highest quarters, in which the figures have been rigorously checked and verified."

"Documentary and verbal testimony gathered and authenticated permit the giving of precise details concerning the losses suffered by the Germans and by us on the Verdun front," says the semi-official communication given to the Associated Press. "During the period from February 21, when the battle began, to April 1, it is known that two army corps, namely, the 3d and the 18th, have been withdrawn from the front, having lost in the first attacks at least one-third of their forces. They have re-appeared since and have again suffered like losses."

Imports Increase More Than \$50,000,000,
While Exports Were Enhanced
\$35,000,000.

London, April 8.—The economy campaign for righting the balance of trade apparently is not progressing much at present as the Board of Trade figures for March show that imports increased \$53,150,000. Exports increased \$37,110,000. The chief increases in imports are in food and drink, \$25,000,000; raw cotton, \$10,000,000; chemicals, \$8,250,000. The increase in exports is principally in manufactured articles, cotton textiles showing a gain of \$10,000,000.

HONORS OF WAR

To Be Given Spanish Prisoners Who
Died at Portsmouth.

Portsmouth, N. H., April 8.—A military funeral with full honors will be accorded by the American navy to the Spanish dead on Seavey's island when the bodies are transferred next Tuesday to a Spanish naval transport for shipment to Spain.

The Spanish ambassador to the United States, Don Juan Riano, Gayangos, will be present with his staff, and the government and navy department of this country will send formal representatives for the occasion.

Thirty-one prisoners of war, captured in the battle of Santiago and who died in the stockade in this city during the war, were buried on Seavey's island.

No Tires are "larger,"— taken Type for Type,—than GOODRICH Black-Treads

SIZE for Size, and Type for Type, Goodrich Tires are as large as the largest put out by any Maker, and WILL BE SO MAINTAINED.

This means larger than corresponding Sizes and Types of many other Tires for which even higher prices are asked.

It means, too, the most generously made FABRIC Tires on the Market, at any price.

Manufactured by the largest Rubber Factory in America, with a 47 year Experience in Rubber-working, and a Record for DEPENDABILITY which makes the above statements worthy of prompt acceptance.

Made from the new "Barefoot Rubber," which gives its maximum Traction with minimum Friction,—with resilience, liveliness and long-life to Tires.

PRICED on that "Fair-List" basis initiated Jan. 1st, 1915, by the B. F. Goodrich Co., which saved more than \$25,000,000 last year to Tire-Users, through its propaganda against Padded Price-Lists.

Priced so reasonably low that Competitors, whose products are not comparable, claim superiority on the mere strength of their Higher Prices (and the Larger Profits they demand from the Tire-User and Dealer).

Goodrich Prices are based on what it costs the largest, and longest experienced, Rubber Factory to manufacture Tires, as ONE of the 269 lines of Goodrich Rubber Goods for which it buys Crude Rubber, and over which its Overhead Expenses are divided.

Good Business Men should know, from this, why Goodrich "Barefoot" Tires can be (as they are) the best Tires on the Market AT ANY PRICE,—though quoted at the moderate "Fair-List" figures frankly and openly published herewith.

The Bank Statement

How many patrons of the banks in our state study carefully and intelligently the published statements of the bank in which they deposit their money, either for commercial convenience or as an investment of savings with a view to an adequate return of interest? The subject of any investment for use on the farm or in the household is carefully scrutinized that the best may be obtained with the least outlay. There is equal reason why every depositor in a bank should follow the growth of his bank with which he does business and note its prosperity—or lack of it—as shown by the published statement. And he should go farther and measure up the standards by which the management conducts the business entrusted to it. No bank will run—in the right direction—automatically, and laxity or indifference on the part of the management is quickly reflected in results. The "one man" bank may succeed, but it will not attain the measure of success that is sure to come to the institution in which every member of the board is a live wire.

We shall be pleased to submit for review or comparison our regularly published statements, that our patrons may note a steady growth of deposits and surplus—the latter notwithstanding the "extra dividends" made from time to time.

Banking by mail is both safe and convenient.
